BRIAN MAPHUTHA

Aspiring Investment & Quantitative Analyst | Financial Engineering | Economics | Econometrics

Johannesburg, South Africa | +27 72 711 4415 | maphuthabrian1@gmail.com | www.linkedin.com/in/brian-maphutha-929790235

PROFESSIONAL SUMMARY

A Master of Financial Engineering Graduate who is cut from a different cloth with strong foundations in quantitative finance, econometrics, and financial markets. Industry-qualified through the ASISA Financial Market Practitioner qualification, with hands-on experience in investment analysis, portfolio reporting, and academic research. Adept at translating complex data into actionable insights, with strong interests in asset management, risk analysis, and policy-driven market dynamics. An adaptable and proactive individual with a unique approach to problem-solving and thriving under pressure. Calm, a bit outgoing, and approachable, with a genuine appreciation for change and continuous growth. Possess a strong interest in current affairs, artificial intelligence, reading, and writing, inspired by Prof Tshilidzi Marwala's principle that "those who do not read should not lead." Passionate about acquiring new skills, embracing challenges, and contributing meaningfully in dynamic environments. Detail-oriented data enthusiast with solid experience in data warehousing, process validation, and business needs analysis. Demonstrated ability to understand stakeholder requirements and translate them into effective, actionable solutions. Known for reliability, commitment, and a deep enthusiasm for Big Data, Blockchain, Economics, Financial Inclusivity and its transformative potential.
